Paragraph and Debate Writing

Page-126

1. We need to be very careful while boarding the school bus. We should form a queue for boarding the school bus. When the bus arrives, we should get inside the bus one by one and make sure that we do not push others. Pushing and shoving others can easily cause accidents. We must help the junior children in boarding the bus first. Apart from this, we must listen to the instructions of the driver and the conductor. This would help in making our school commute safe.

Page-127

2. One must have faith in oneself. Faith in oneself helps in increasing one's confidence. When a person is confident of himself, he can accomplish difficult tasks by staying positive in such circumstances. One should do one's best in every situation and should avoid blaming others. One should also avoid comparing oneself with others and make an attempt to better oneself every day. So, instead of comparing with others, one should compete with oneself. Self-faith and belief in God can work wonders.
3. The morning assembly in a school should be short. It should start with a small prayer. The prayer should be followed by the news. Apart from the news, some interesting facts can also be shared in the school assembly. A short quiz can also be conducted in the assembly. The assembly should end with the singing of the school song.

Page-128

- A.1. I'd like to argue for the topic, 'Children don't need mobile phones.' In my opinion, mobiles are a big waste of time. Children should not waste their time on mobiles and should rather concentrate on their studies. This would help them in building a better future. Excessive mobile usage can cause serious health issues and can also affect one's concentration. By using mobiles, children can get access to adult content that is not meant for them. They may also become a victim of cyber-bullying and stalking by using mobiles. So, I strongly believe that children don't need mobile phones.

Page-129

- A.2 I'd like to argue against the topic, 'Students should wear only school uniform.' In my opinion, children should be allowed to wear whatever they wish for going to school. I fail to understand why school uniform is made compulsory in schools. India is a poor country and many parents cannot afford to purchase school uniform for their children. So, this acts as a hindrance for the children to attend school. Hence, there should be no school uniform in schools.
